

E3/E4 DTP PIP Hosts List

The below list is of the places where E3/E4 students have been doing their PIP in the past. This is an indicative list only as the PIP (E4 professional internship scheme) can be done in a wide range of settings and sectors. Students should find their own host according to their own career perspectives and interests and submit their PIP plans to the E4 DTP management team for approval. The PIP is intended to give DTP students the chance to try out different career pathways and enhance their PhD experience.

[For more information on the PIP and how to apply, go to the E4 DTP intranet webpages \(Studentship details and funding section\)](#)

Organisation/ Institution / Company name	Location	Main activity	Weblink
